SOFTWARE ENGINEER

[LinkedIn](#) | [Portfolio](#) | [GitHub](#)

EDUCATION

Indiana University, Luddy School of Informatics, Indianapolis, IN
Bachelor of Science in Computer Science
Certificate: Full-Stack Development

Anticipated Graduation: May 2027
GPA: 3.6/4.0

General Assembly, Remote
Software Engineering Immersive

March 2023

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C++, HTML, CSS

Libraries & Frameworks: React, Next.js, Express, Material UI, Tailwind CSS

Databases: PostgreSQL, MongoDB

Tools & Technologies: Node.js, Git, GitHub, Vite, AWS S3, Sequelize, Mongoose, REST APIs

SOFTWARE ENGINEERING PROJECTS

Fabsenal, Next.js, React, TypeScript, MongoDB, Firebase Auth, AWS S3

[GitHub](#) | [Application](#)

- Developed a full-stack Flesh and Blood deck-building application using Next.js, React, TypeScript, and MongoDB with authenticated user functionality.
- Built REST APIs for card search, deck management, and format-specific validation.
- Integrated Firebase Authentication for secure user access and AWS S3 for card image storage.

Pokedex React, MERN Stack | AWS S3 | Material UI

[GitHub](#) | [Application](#)

- Built a full-stack Pokémon data application with React, Node.js, Express, and MongoDB using MVC architecture.
- Integrated AWS S3 for audio storage and built reusable React components using hooks.

Garner, MEN Stack | JavaScript | EJS

[GitHub](#) | [Application](#)

- Developed a full-stack application for users to create and manage personal video game collections.
- Integrated Google OAuth and persisted user and collection data with MongoDB.

WORK EXPERIENCE

FedEx

Indianapolis, IN

Material Handler

July 2025 - July 2026

- Audited and coordinated ULD assignments across up to six outbound trailers using route documentation and internal FedEx software, adapting assignments to changing requirements and container availability.
- Verified ULD identification and serviceability status, documented container and trailer assignments, and communicated exceptions to prevent non-serviceable equipment from entering outbound operations.
- Worked as part of a material handling team to stage, load, unload, and transport ULDs; earned tug certification and supported driving operations during staffing shortages.

Indiana University Indianapolis

Indianapolis, IN

Peer Math Mentor

August 2024 - December 2024

- Facilitated weekly classroom activities and group problem-solving sessions to reinforce mathematical concepts.
- Provided individualized academic support and collaborated with faculty to support students with varying learning needs.

Panda Restaurant Group

Indianapolis, IN

Line Cook

July 2018 - July 2025

- Worked in a high-volume team environment while maintaining quality, safety, and operational standards.
